PROFESSIONAL SUMMARY

AI Engineer with production experience in LLM-powered multi-agent systems, voice-automated hiring pipelines, RAG architectures, and full-stack generative AI. Independently engineered 6 AI interview agents at Procand using ElevenLabs Voice AI. Ranked 2nd of 1,100+ teams (IISc ArtPark ProtoDash) and Top 5 of 1,500+ participants (Zynd Aickathon). Research Intern at IBIoT Lab, MMMUT on AI-driven fall detection in IoT smart healthcare environments.

EXPERIENCE

- IBIoT Lab, MMMUT — Research Intern | Gorakhpur · Hybrid** Jun 2026 – Present
- Engineering AI-powered fall detection using IoT sensor streams and ML models for real-time, non-intrusive identification of fall events in elderly patients; selected through competitive evaluation under Dr. Shwet Ketu, Dept. of CS&E, MMMUT.
- Procand — AI Engineer Intern | Remote** Apr 2026 – May 2026
- Independently built 6 AI interview agents (ElevenLabs Voice AI) automating structured multi-round interviews end-to-end, eliminating all manual recruiter intervention per cycle.
 - Engineered STT-based skill-extraction pipelines with multi-dimensional AI scoring, producing objective candidate rankings fed directly into recruiter dashboards.
- IBM – EduSkills Foundation — AI & ML Virtual Intern | Remote** Jun 2025 – Jul 2025
- Built classification (Random Forest, SVM) and regression pipelines on multi-variable industry datasets; feature engineering and cross-validation improved baseline accuracy by ~15%; graduated with distinction, ranked in top 5% of cohort.
- GirlScript Summer of Code (GSSoC) — Open Source Contributor | Remote** Jul 2025 – Present
- Delivered bug fixes, code improvements, and new features across multiple open-source repositories; PRs reviewed, merged, and adopted by project maintainers.

COMPETITIONS & HACKATHONS

- 2nd Place — ArtPark ProtoDash, Rhapsody 4.0 @ IISc Bangalore:** 2nd of 1,100+ teams nationwide, building a production-ready AI solution evaluated by IISc faculty.
- Top 5 Finalist — Zynd Aickathon National (1,500+ participants):** Built Zynd-Alpha, a decentralised Multi-Agent AI Swarm for emergency medical dispatch via real-time LLM voice & image analysis (Flutter, Polygon ID, Twilio).

PROJECTS

- SynapSoul — AI Engineering Operating System** TypeScript · React · TanStack · OpenRouter · Qwen 2.5 · Vercel
- Production full-stack AI platform (synapsoulai.me) with 12 integrated modules — Agent Studio, RAG Studio, Prompt Lab, Dataset Studio, Experiment Tracker, Evaluation Center; local-first IndexedDB + OpenRouter (Qwen 2.5 7B); TypeScript strict, 53 tests, Vercel CI/CD.
- SynapSoul Nexus — AI Research & OSINT SaaS** Python · FastAPI · LangChain · FAISS · Gemini 2.0 Flash · FPDF
- Full RAG pipeline (FAISS + Gemini 2.0 Flash); OSINT Social Scout via LangChain scraping Google Scholar and auto-generating Executive Summary PDFs — cutting manual research time by 70%.
- SwiftShield — AI-Powered Micro-Insurance Platform** Python · FastAPI · WebSockets · Razorpay API · XGBoost
- 7-day hyperlocal disruption risk engine; async WebSocket backend for live weather/AQI monitoring, automated Razorpay insurance payouts, XGBoost fraud scoring with duplicate-submission detection.

TECHNICAL SKILLS

- Languages:** Python, C++, C, Dart, HTML, CSS
- AI/ML & GenAI:** LLMs, RAG Pipelines, NLP, Multi-Agent AI, LangChain, FAISS, TensorFlow, XGBoost
- Voice & Conv. AI:** ElevenLabs Voice API, STT, Multi-turn Dialogue, AI Interview Agent Design
- Backend:** FastAPI, Django, REST APIs, WebSockets, Microservices, Async Programming
- Frontend & Mobile:** Flutter (Android), React, Vite
- Databases:** MongoDB, Supabase, Hive, FAISS Vector DB
- Cloud:** AWS (EC2, S3, RDS, Lambda, VPC)
- DevOps & Tools:** Git, GitHub, Postman, VS Code, Kali Linux
- Integrations:** ElevenLabs, Razorpay, Twilio, iTunes, Google OAuth, Gemini, Polygon ID APIs
- Networking:** Cisco CCNA (Routing, Switching, Wireless, Security & Automation), Palo Alto
- CS Fundamentals:** Solved 200+ DSA problems (LeetCode & CodeChef) in C++ — DP, Trees, Graphs; OOP (C++), OS, Computer Networks

CERTIFICATIONS & TRAINING

- CCNA: Introduction to Networks — Cisco Networking Academy (Mar 2026) | CCNA: Switching, Routing & Wireless Essentials — Cisco (May 2026)
- CCNA: Enterprise Networking, Security & Automation — Cisco (May 2026) | Network Security Fundamentals — Palo Alto Networks
- AWS Solutions Architect – Associate (Practice Exam) — AWS (Feb 2026) | AWS Cloud Practitioner (Practice Exam) — AWS (Feb 2026)

EDUCATION

- G.L. Bajaj Institute of Technology & Management, Delhi NCR (AKTU)** Sep 2023 – Jun 2027
- B.Tech — Computer Science & Engineering · CGPA: 7.5 / 10 (78% through 5th Semester)
